3.	<p>Risk Management Corporate Risk Register (CRR) The Corporate Risk Register Working Group (CRRWG) met on 8 August 2018 to consider issues of potential risk identified by SMT at the last meeting. C Kane updated members on developments and the following points were discussed:</p> <p><i>Enhanced contact with political parties</i> – The CRRWG recommended the development of a strategy protocol for engaging with political parties and this was added to the Action Plan of both Risk 1 and Risk 3a. SMT was content this was covered within the engagement strategy which forms part of the three year public reporting programme.</p> <p><i>Accommodation Review/Data Analytics development/Procurement – contracting out/EAF</i>- Directors responsible for these areas have been asked to provide risk registers or position papers to enable CRRWG to assess any risk triggers or actions within the CRR at their next meeting.</p> <p><i>Escalation of risk 3(a) to amber</i> – CRRWG proposed an increase in the scaling of risk 3(a) from green to amber. SMT considered and concluded that very recent activity to agree the three year public reporting programme meant retention of the green rating was appropriate on balance.</p> <p>The current CRR will be made available to all staff on NIAOmi.</p> <p>The current composition of the CRRWG is to be broadened and expressions of interest will be sought from staff at Auditor and Senior Auditor grade.</p>
4.	<p>Finance R Allen updated members on the financial position for 2018-19. Currently there is a potential projected underspend. He noted savings reflected by the recent round of VES and a time lag in recruitment processes contributed to the underspend. As part of the October Monitoring round the Operational Management Team (OMT) will meet later this month to discuss the surrendering of some in year funds and report back to the C&AG. Given the full year financial impact of the recruitment processes it was noted it is critical the office maintains its baseline going forward.</p>
